**EDI CON is the Premiere Event
Dedicated to Microwave RF
High Speed Digital Design**

EDI CON Electronic Design
Innovation Conference
电子设计创新会议 2013

EDI CON, Beijing, China, March 12-14, 2013 is an industry-driven conference/exhibition targeting RF, microwave, EMC/EMI, and high-speed digital design engineers and system integrators developing products for today's communication, computing, RFID, wireless, navigation, aerospace and related markets. The integrated technical program and exhibition presents hands-on, practical solutions for enhancing physical design at the semiconductor, module, PCB and system-levels, bringing together designers at the forefront of Chinese innovation and the world's leading technology companies. For more information on the technical program and exhibition go to www.EDICONChina.com

**There's never been a better
time to advertise in
Microwave Journal**

Advertiser Bulletin

Theme: Amplifiers and Oscillators

The applications for Amplifiers and Oscillators in the RF and microwave field are vast, varied and significant. This issue of *Microwave Journal* examines the vital role they play and the latest innovations that are delivering technical and operational advancement.

Articles:

- Cover Feature – State-of-the-art phase noise measurement techniques
- A compact low cost 10 MHz to 40 GHz amplifier module
- Digital baseband tuning improves vector signal generator performance
- Very-near-field antenna measurements – evaluation and comparison to conventional methods

Plus

Comprehensive coverage of the latest industry news, technical articles, product features and new product announcements

MWJ Bonus Distribution:

CTIA Wireless
Las Vegas, NV
May 21-23

It's a fact!

More companies advertise in Microwave Journal than any other publication in its field.

Why?

Because Microwave Journal reaches more than 50,000 professional readers with significant buying power worldwide.

Microwave Journal also has the most respected editorial content in its field. Tailored to the needs of readers, it features the latest in technical information, special reports, new product information and news.

Frequency Matters.
