

February 2018 Theme: *Satellite and Radio Communications*

Watch this space as *Microwave Journal* attempts to keep readers tuned into the latest technology and innovation orbiting the field of satellite and radio communications. The focus is on the latest developments that are driving this constantly evolving sector of the RF and microwave industry.

Articles:

- **Cover Feature:** Millimeter Wave Arrays for 5G: Silicon vs. GaN Front-End Architectures
- Time Domain Channel Compensation Method Suitable for a Wideband Digital Predistortion System
- Composite Materials Form Radiation-Free Defected Ground Structure Circuits
- Two-Layer Stacked Microstrip Cylindrical Conformal Antenna Array Using Cross Snowflake Fractal Patches

Plus

Comprehensive coverage of the latest industry news, technical articles, product features and new product announcements.

Software & Mobile Apps Update

Open to MWJ advertisers the Update focuses on software and mobile apps aimed at RF and microwave engineers. To be included send approximately 80 words, together with a high resolution image or screen shot to Ashleigh West at Awest@mwjournal.com by **January 5, 2018**.

Ad Close: January 10

Ad Material Due: January 12

BONUS DISTRIBUTION: *Microwave Journal* February issue

Mobile World Congress
Barcelona, Spain
February 26-March 1

GOMACTech
Miami, FL
March 12-15

SATELLITE
Washington, DC
March 12-15

Exhibit at EDI CON USA 2018!

EDI CON USA 2018 brings its unique combination of exhibitors and conference programs for high-frequency and high-speed engineers to the west coast!

This year, EDI CON USA 2018 makes its home in the heart of Silicon Valley at the Santa Clara Convention Center. EDI CON is the place to talk about the entire system design, from simulation of components and systems, to materials/PCB boards, devices and foundry services, components, cables and connectors, testing, measurement, and verification.
