

August 2018 Theme:

European Microwave Week Show Issue

Madrid hosts Europe's premier RF and microwave event for the first time, eager to display its storied history and modern architecture to all attendees. In this issue, MWJ readers get a preview of the three major conferences, associated workshops and short courses, as well as the *European Microwave Exhibition*, where leading international players showcase their latest product offerings.

To help readers plan their visit, the issue includes:

- Welcome to European Microwave Week
- EuMW 2018 Defence, Security & Space Forum
- Exhibitor List
- EuMW Product Showcase

In addition to event coverage, the issue contains a broad variety of articles on the latest technologies and design applications, including:

Articles:

- **Cover Feature:** A Highway to European Cooperation in Defence Technology Research – Avoiding the Tower of Babel
- **Special Report:** Wireless Technology in Spain
- Spatial Multiplexing for 5G Systems
- Millimeter Wave Over-the-Air Test Approaches

Ad Close: July 12

Ad Material Due: July 16

Software & Mobile Apps

This quarterly feature provides companies with the opportunity to feature their latest online tools with an 80-word description and high resolution image. Send to Ashleigh West at awest@mwjournal.com by **Monday, July 9th** for possible inclusion.

New Products

All advertisers in the August issue are eligible for a free new product listing in the Product Showcase. To be included send approximately 80 words, together with a high resolution image of the product being featured along with your company's web address to Barbara Walsh at bwalsh@mwjournal.com by **Friday, June 29**.

Exhibit at EDI CON USA 2018!

EDI CON USA 2018 brings its unique combination of exhibitors and conference programs for high-frequency and high-speed engineers to the west coast!

This year, EDI CON USA 2018 makes its home in the heart of Silicon Valley at the Santa Clara Convention Center. EDI CON is the place to talk about the entire system design, from simulation of components and systems, to materials/PCB boards, devices and foundry services, components, cables and connectors, testing, measurement, and verification.
