**EDI CON is the Premiere Event
Dedicated to Microwave RF
High Speed Digital Design**

EDI CON Electronic Design
Innovation Conference
电子设计创新会议 2013

EDI CON, Beijing, China, March 12-14, 2013 is an industry-driven conference/exhibition targeting RF, microwave, EMC/EMI, and high-speed digital design engineers and system integrators developing products for today's communication, computing, RFID, wireless, navigation, aerospace and related markets. The integrated technical program and exhibition presents hands-on, practical solutions for enhancing physical design at the semiconductor, module, PCB and system-levels, bringing together designers at the forefront of Chinese innovation and the world's leading technology companies. Exhibition and speaking opportunities are filling up fast. For more information on the technical program and exhibition go to www.EDICONChina.com

**There's never been a better
time to advertise in
Microwave Journal**

Advertiser Bulletin

Theme: Radar and Antennas

In 2013 Microwave Journal will continue to report on the issues and technological innovations affecting, driving and shaping the RF and microwaves industry. This issue identifies the direction that **Radar and Antenna** technology is currently taking and signals future trends.

Articles:

- Cover Feature: MIMO radar – demystified
- A passive covert radar – AULOS
- Enabling full RF transmitter linearization using a wideband DPD measurement platform
- Conformal antenna array design on a missile platform

February 25 – 28

It's a fact!

More companies advertise in Microwave Journal than any other publication in its field.

Why?

Because Microwave Journal reaches 50,000 professional readers with significant buying power worldwide.

Microwave Journal also has the most respected editorial content in its field. Tailored to the needs of readers, it features the latest in technical information, special reports, new product information and news.

Frequency Matters.
