DESCRIPTION

Microwave Journal Business Email List are design engineers, project managers and executives with key decision-making power. These industry experts are directly involved in their firms' specifications and purchasing plans for a variety of products.

They rely on Microwave Journal Business Email List to get the best technical research and development news about wireless productivity and wave frequency. They work in both the commercial and government sectors - industries varying from radar and communications to automotive and security products. Subscribers are design engineers working in the RF, Microwave and Millimeter Wave spectrum. They are also computer-aided design analyzers who design amplifiers, oscillators and other components that make up cell phones, play stations and other useful handheld electronics.

Reach those who have opted-in to receive email messages for solicitation.
